10.1 inch
screen

2.5D tempered panel (IPS)

With IPS anti dazzle display screen,
the visual angle range is wider

- ☑ 2.5D tempered curved screen
- ☑ IPS 360 ° full view original screen
- ☑ G + G capacitive touch screen

2.5D

- ① 2.5D hard, not easy to scratch, no scratch
- ② 2.5D corrosion resistance, will not change color in case of acid and alkali oil
- ③ The transmittance of 2.5D is more than 91%, and the glass is clearer

BT

BT 5.1 wireless transmission

Low power consumption, stable sound quality
Answer and make phone calls, listen to music,
broadcast mobile phone navigation.

G+G Screen VS G+P Screen

G + G toughened glass capacitor screen is hard and not easy to scratch

G + P plastic film capacitor screen is easy to scratch, and the screen will be scratched after using for a period of time

G + G toughened glass capacitor screen is corrosion-resistant and will not harden and change color in case of acid and alkali oil

G + P plastic film capacitor screen will change color in case of acid and alkali oil, with obvious white spots and mist

G + G toughened glass capacitor screen with light transmittance more than 91% makes

The light transmittance of G + P plastic film capacitor screen is lower than 83%, which is fuzzy. It is a common oil screen

WiFi Connection

You can connect your WiFi Internet device or mobile phone hotspot to connect to the network, and you can enjoy the fun of online surfing.

Note: it needs to be connected to the wireless WiFi hotspot in 2.4GHz

After networking, various app software can be downloaded and installed, and the data of map software can be updated to the latest.

HD Video

Support 1080p HD format

Screen resolution: 1024x600

Supported formats: RM / RMVB / AVI / MP4 / MKV / 3gp

Can download a variety of video software online, source worry free,
want to see what you want to see

Reversing Image

Refuse the rear blind zone + dynamic reversing track line

Product Paramenters

Type	10.1-inch single-spindle shaking machine
System	Android 13
Software solution	Jing'anchi 8227

Radio frequency	FM 87.5~108.0MHz
Screen resolution	1024*600
Power amplifier IC	YD7388
Output power	60Wx4
Working voltage	12~14.4V
Working temperature	-10~60°C
Bluetooth version	5.1 (default name: SWL-BT)
wifi frequency	2.4GHz
GPS signal	GPS+GLONASS+Beidou
Reversing image	supported (AHD camera optional)
Mobile Internet	support (Apple/Android)
Steering wheel control	Support
Video output	support
Offline map	support
Driving recorder	support
GPS navigation	support
Rear USB	USB2.0 reading x2 External microphone interface supported (external microphone optional)
Reset button	support
Audio output	Audio output 2 channels (left channel + right channel)
Video output	1 channel
Audio input	2 channels (left channel + right channel)
Video input	2 channels

Reversing video input	1 channel
Audio format	MP3/WMA/WAV/APE/FLAC/AAC/OGG/RM
Video format	MPEG/AVI/RM/FLV/ASF/WMV/MP4/MKV/OGM/TS/DivX/RMVB/VOB
Image format	JPG/BMP/PNG/JPEG/GIF
