

This listing includes 2pcs of LED headlight.Each bulb has 2 piece high power COB LED.

Lighting Output:8000LM/Pair 4000LM/Bulb

Waterproof: IP68. Voltage:9V to 36V. Wattage:80W/Pair,40W/Bulb.

Fit :H3. Upgrade for Car,Trunk,SUV,RV HID Xenon Headlight,ALL IN ONE Style, no extra driver needed .

Refined heatsink streamlines heat away from the LED

13000RPM TurboCool fan ,Shoots cold air directly through an aerodynamic vent to evenly cool every component.

Built in IC Circuit (Current Regulator)-Prevents LED Damage from Voltage Variations & Spikes

80% Less Power Consumption

Important Notice: For some European vehicles equipped with a CANBUS systems, our LED Headlights may not light up or flicker. Anti-flicker Relay Harness is needed to prevent it.Just in case,please check the size before you made the order!

own different test machines to design exact accurate parameter for our products. For example, like output igniter voltage test, EMC test, power watt test, impulse current test ...etc.

Automatic glue-pouring Machine. Ensure hid ballast 100% waterproof.

This automatic glue-pouring machine is able to help glue each ballast much better than by hand. making sure 100% waterproof to fit different complicated working environment
