Panoramic camera is a car safety feature.The surrounding cameras simultaneously collect images around the vehicle and transmit them to the image processing unit.After a series of image processing , a panoramic overhead view around the vehicle is finally formed and displayed on the screen , intuitively presenting the location and surrounding conditions of the vehicle.

never miss a call again or take any risks replying to messages while driving.  
it's a smarter and safer way to use your phone in the car.  
simply connect your phone and go.

Android Auto

simply connect your Android phone and you'll have total control over your entertainment communications other Android apps.
